Halina Bak-Hughes

Interbeing: The Aquarian Christ Pervading the Manifestation Process

HALINA BAK-HUGHES has been a life-long student of the "Ageless Wisdom Teachings" (Trans-Himalayan Wisdom, Vipassana Meditation (S. N. Goenka in the tradition of Sayagyi U Ba Khin), Theosophy, Esoteric Christianity, Metaphysics, Ritual Ceremony and Meditation for a New World Spirituality and Religion) that began in her youth when experiencing the rituals and sacraments of the church which led to 'Ordination and Consecration' in an esoteric lineage. After years of immersion in the Ageless Wisdom

teachings (earning esoteric degrees and certificates in both traditional and esoteric lines of study – an M.S.E/Esoteric Psychology, Doctorate in Divinity/Esoteric Cosmology-ABD, and Esoteric Astrology via the University of the Seven Rays), she recognized that these studies and their application are expressions of a comprehensive esoteric science approach for modern Discipleship and the emergence of a Soul Culture on Earth.

Today, Halina helps unfold the living powers of the Soul through her spiritual mentoring practice (as a certified Coach) and founder of “Esoteric Advent” (Sol Invictus Universalis) – a contemplative on-line ritual and spiritual approach to Divinity drawing from the ancient Wisdom Teachings aligned with the zodiacal rhythms of the year, the stars and liturgical seasons ~ in service of the Heart of the Christ and the Soul of Humanity ~ arising to meet an emerging ‘new world’ demanding a truer “spirituality and religion” that is now taking shape and form: www.EsotericAdvent.org

Halina is a member of the Board of Trustees for the Seven Ray Institute (SRI) and the University of the Seven Rays (USR), is a Member of the Board for Meditation Mount (MGI) in Ojai, CA and serves on the Board of the ILWSC. Rose Bates

Workshop:

Alice A. Bailey and Thirty Year Body of Work

This workshop will introduce the life and history of Alice A. Bailey – who she was, her 30 years of work with “the Tibetan” and the priceless body of work that emerged from their association, remaining as relevant today and the distant future as it was then. We will explore how her work came to be, the basic tenets of her teaching and a short history of the “Ageless Wisdom” in its modern day form. Ample time for Q&A and group discussion will follow.

ROSE BATES from an early age was attracted to the Ageless Wisdom in the form of ritual and study. She started this journey as a child in the Rosicrucian Order, being privileged to have an active role in mystical ritual. During the crisis of adolescence, she deeply immersed herself in the works of Alice Bailey thereby finding a wider world view with meaning and purpose to life. During this time she also engaged in an investigation of Theosophy, Esoteric Tarot and Qabalah. Rose wants to see active expression of Soul Life become manifest in groups and individuals, where it can transform both minds and, more importantly, Hearts (the living Abundance of Self). fjohatlife@gmail.com

José Becerra

Plenary:

Hierarchical Democracy, Agni Yoga and the Plan

The “ideology behind the democratic ideal constitutes a response to the universality which the love of the Hierarchy prompts it to express” (Destiny of the Nations, 22). Modern democracy is at present “a philosophy of wishful thinking and an unachieved ideal” to be superseded by the rule of “enlightened people” who “will not tolerate authoritarianism in any church or totalitarianism in any political system” (The Reappearance of the Christ, 164).

“True Democracy awaits the time when an educated and enlightened public opinion will bring it to power; towards that spiritual event, mankind is hastening. The battle of Democracy will be fought out in the United States.” (The Rays and the Initiations, 746).

The Plan for externalization of the planetary spiritual Hierarchy and the reappearance of the Christ includes “the presentation of those ideas which will eventually lead to a fusion of those principles which govern a democracy and which also condition the hierarchical method—which is somewhat different.” (The Externalisation of the Hierarchy, 575). The fusion of these principles,

and certain major and spiritual premises lying back of all efforts to formulate a “new world order” (ibid, 190), will be addressed in this talk, as well as how the revelatory yoga of synthesis, Agni Yoga, can support “the duty and the responsibility of the disciple, working under the inspiration of the Ashram, to “modify, qualify and adapt” the proposed plan of Shamballa (for which the Ashrams are responsible) in connection with the coming civilisation and culture (Discipleship in the New Age II, 278).

Dr. José Becerra, MD, MPH, FACPM. Since his professional retirement, Dr. Becerra has become a full-time student of the four classical disciplines (Quadrivium) of number, geometry, music and cosmology applied to solve the problems of humanity. Since 1999, Dr. Becerra has devoted his esoteric work to the study and practice of Agni Yoga (<http://english.agni-yoga.org>). Dr. Becerra has worked along with the New Group of World Servers in the fields of government, medicine, international health and mathematical epidemiology (<https://www.linkedin.com/in/jbecerramd/>).

Plenary & Workshop:

Mystery Schools: Past and Future

In *The Secret Teachings of All Ages*, Manly Hall provides a comprehensive survey of the Western Mystery Tradition. In the book's Foreword, Hall writes:

“[Truth-seekers] have dedicated themselves to the mastery of life, and have perpetuated from generation to generation the knowledge and skill they accumulated. This body of essential knowledge is the esoteric tradition. The institutions which perpetuated this tradition are the Mystery Schools, and the graduates of these schools are the adepts.”

In his book *The Reappearance of the Christ*, the Tibetan Master Djwhal Khul reveals significant insights into the Mysteries of Initiation:

“The ancient Mysteries were originally given to humanity by the Hierarchy and contain the entire clue to the evolutionary process, hidden in numbers, in ritual, in words and in symbology; these veil the secret of man's origin and destiny, picturing to him, in rite and ritual, the long, long path which he must tread, back into the light. They provide also (when rightly interpreted and correctly represented) the teaching which humanity needs in order to pass from darkness to Light, from the unreal to the Real and from death to Immortality.

Under the divine will, the coming World Teacher has to reappear on Earth in visible Presence. He has to preside over the materialization of the Kingdom of God on Earth, and He has to re-institute the Mysteries of Initiation in such a form that they would prove the basis of the new world religion.”

These presentations provide a visual survey of the Mystery Schools, both past (Hall and other authors) and future (AAB/DK). Topics include the Mysteries, Atlantis, Egypt, Mesopotamia, Persia, Greece & Rome, Scandinavia, Britain, the Judeo-Christian Tradition (Kabbalah, Essenes, Gnosticism, etc.), the Americas, Freemasonry, the Rosicrucians, the Future Schools and more. We will cover as many of these as time allows.

NOTE: Due to copy-righted image restrictions, this presentation cannot be live streamed.

Duane Carpenter

Plenary and Workshop:

A Center of Living Light Composed of All the Spiritual Rays

This presentation is based on the creation of a personalized 6-fold ray chart done according to the 7 ray colors given out by HPB and DK. The Colors associated astrologically with the individuals Sun, rising and the sun signs polar opposite are also added for a more complete picture.

These 6-fold ray charts of the individual disciple are also meant to give a more intuitive or 4th ray grasp of the rays and how they may interact to create a living organism on the inner planes, an entity much greater than the sum of its parts.

Light is the main theme of all initiatory experiences and these 6-fold ray charts that will be shared is a good visual example of who we are and what qualities of colored-light we work with and express.

These 6-fold ray charts are done in concentric bands which is a better and more accurate representation of the rays according to DK. The Tibetan speaking of the rays in relationship to color has stated.

"The seven colours may be regarded as a band of seven colours circling and continuously shifting and moving through the planes back to their originating source..... The bands of colour form a circulating ring which, moving at different rates of vibration, passes through all the planes, circling down and up again. (LOM 212)

DUANE CARPENTER'S primary interest in the last 40 years has been the study of the 7 rays as emanations of colored light and creative sound, his work with colored symbols is well known. He has also made many parallels between ancient Yogic traditions and new discoveries in the quantum sciences and electric astronomy and cosmology. His primary research at this time is based on this quote by the Tibetan found in *A Treatise on Cosmic Fire*.

If this Treatise serves no other purpose than to direct the attention of the more scientific and philosophical students to the study of force or energy in man and in groups, and to interpret man and the human family in terms of electrical phenomenon, much good will have been accomplished. The polarity of a man, of a group, and of a conger of groups, the polarity of the planets and their relationship to each other, and of one principle to another, the polarity of the subtler vehicles, and the scientific application of the laws of electricity to the totality on the physical plane will bring about a revolution upon the planet second only to that effected at the time of individualization". Elena Dramchini

Pre-Conference Esoteric Astrology Workshop speaker

Pre-Conference Seven Ray Workshop facilitator

ELENA DRAMCHINI has been a student of the Ageless Wisdom for 35 plus years with a primary focus on Astrology in all its levels of expression. Expanding her in-depth knowledge of esoteric astrology (the astrology of the Soul), she turned to specializing in the determination of achieved levels of Consciousness of an individual's stage on the Path and where he/she stands in the Initiation

process. The Tibetan Master DK's instructions to His disciples in the two volume set, Discipleship in the New Age (DNA I-II), were her inspiration and provided a rich resource for her initial experimental work in these areas of study. In 2003, Michael Robbins offered her the opportunity to take her work on the DNA disciples further, which began a collaboration to deepen their understanding of these early disciples and the Path of Discipleship. Their work can be found on the Makara.us website. In 2013, Elena resumed this work and began offering an ongoing webinar series on the Tibetan's disciples through the lens of esoteric Astrology, the Rays, the etheric centers, meditation, group work, stages on the path, the Initiatory process and the qualities to develop, and the obstacles and struggles to overcome that lead to true Soul victories and achievements when applying the wisdom teachings. The astro-rayological approach offers all modern students a comparative analysis for deepened study, scientific understanding and Soul unfoldment. Recordings of these webinars can be found [here on Makara](#). Elena is a professional astrologer and a regular facilitator in the pre-conference Astrology Seminars for the annual international SRI/USR conferences in the U.S. She is also a faculty member and head of The Path courses in the Morya Federation Esoteric School of Meditation. After living 38 years in London, she moved to Slovakia, her country of birth where she continues her work and service. Email: ed17esoteric@hotmail.com

Steve Farrell

Plenary on Skype:

Humanity's Team Manifesting the Plan Today

Steve Farrell, Worldwide Executive Director for Humanity's Team, will share his journey walking away from a Silicon Valley technology business and lifestyle as an entrepreneur to co-founding Humanity's Team with Neale Donald Walsch in 2003.

Steve will share Humanity's Teams journey to the United Nations in 2010 with 52,000 Oneness Declaration signatures, and the convening of the first Global Oneness Day. Among the several programs initiated by Humanity's Team, Steve will also share the Conscious Business Declaration and Conscious Business Change Agent (CBCA) program for the true role of business in the coming age. Steve will also highlight a significant initiative – the "Oneness in 12 Spheres of Life" programs created with Barbara Marx Hubbard, designed to have worldwide impact, and which complement the UN's Sustainable Development Goals.

Before **Steve Farrell** co-founded Humanity's Team with bestselling author Neale Donald Walsch, he co-founded and led two high-growth technology companies based in Silicon Valley in the 1990s that spanned across both the United States and Europe, were featured on the INC 500 list, and were each operating at more than \$75 million in revenue at the time of their sale.

By that time, Steve was also an officer in both the Young Entrepreneurs' Organization and the Young President's Organization, but he walked away from all of it when he felt a calling to instead play an active role in creating a movement that could help people across the globe connect more deeply with the Oneness of all of Life and the Divine energy of the Universe.

Steve is the Worldwide Executive Director of the Humanity's Team non-profit organization and a member of the Evolutionary Leadership Council. He lives with his wife Stephanie and his two children in Boulder, Colorado.

Plenary:

The United Nations Anchors its Soul Though the 2030 SDG (Sustainable Development Goals) Agenda

The IDEA of a United Nations serving as the Head Center for Humanity for the Good for all Life and the Earth itself has been part of the Plan for Humanity since the beginning of the first World War 1914-1918. The Ideal of a League of Nations was developed during the presidency of Woodrow Wilson and put forth to the victorious nations at the War's conclusion. However, full agreement among the major nations, especially the United States, was not forthcoming and the planning was discontinued.

Midway during the second World War, the ideal of a robust United Nations arose in the minds of Franklin and Eleanor Roosevelt, key cabinet members and advisors, and supported actively by the Spiritual Hierarchy. With the victory over Germany and the Axis forces, the UN Charter envisioning a world of Peace, Security and Right Human Relations was voted on and accepted by the Allied

nations in June, 1945 in San Francisco.

The tone and manner in the present United Nations began to change with the admittance and counsel of non-governmental organizations during the 1980's, giving voice to global issues beyond those of any specific nation state.

In June 1992, at the Earth Summit in Rio de Janeiro (Brazil) more than 178 countries adopted Agenda 21, a comprehensive plan of action to build a global partnership for sustainable development to improve human lives and the environment. This signified both global thinking and an expression of the Will to Good for all.

In September 2000 member states adopted the Millennium Declaration leading to eight goals to reduce extreme poverty by 2015, known as the Millennium Development Goals (MDGs). In June 2015, the General Assembly began a negotiation process to develop a post 2015 development agenda, culminating in the adoption of the 2030 Agenda for Sustainable Development with 17 goals at the core.

The process of gaining agreement of member nations to name and begin to resolve some of the major problems, revealing former hidden global opportunities, is a sign of the world group Soul emerging as the United Nations begins to function as the Head Center where Purpose is Known, and Will is summoned to implement that Purpose.

Martha Gallahue is a world server focused upon the spiritual growth of the United Nations since 1997. She has served as co-founding member of several groups there including the Spiritual Caucus, CONGO Committee on Spirituality, Values and Global Concerns, United Religions Initiative Circle at the UN, and Global Movement for the Culture of Peace. She has participated in World Conferences in South Africa, Mexico, New York City and traveled to Russia to witness to the challenges of Trafficking of women and children. She has been Main and Alternate representative in association with both the Departments of Public Information and Economic and Social Councils through the non-governmental organizations National Ethical Service and United Religions Initiative. A current student of Ageless Wisdom, she serves on the advisory boards of Source of Synergy Foundation and Breaking Walls. Martha is a practicing psychoanalyst in private practice. She is a contributor to EsotericAdvent.org and the new moon webinars with the 2025 World Servers Network.

Subjective Influence of 4 Seed Groups

As an impulse of evolution, the 10 Seed Groups were first defined by the Tibetan in the early 1930s. Its purpose is to implement a long range plan by the Hierarchy for creating the same corresponding seed group on the physical plane to those already existing in the Ashrams.

Here in the 21st Century, the following four seed groups are providing significant influence in the political, economic and cultural sectors to humanity: SG-1 Telepathic Communicators, SG-2 Trained Observers, SG-5 Political Observers and SG-9 Financiers/ Economists. We will examine each of these four groups in relation to their Ashramic purpose, ray energy influence, how these seed groups currently function in the world, and the challenges they face for making lasting change towards unfoldment of the next stages of the Plan.

David has been a student of esotericism, also called the Ageless Wisdom, since 1980. He has presented to groups expressing various forms of the Wisdom Teachings in Arizona, California, Colorado, Washington and Russia. In 2009, he has completed esoteric studies with the Arcane School from the teachings of Alice Bailey and Helena Blavatsky.

Through the Lucis Trust, he has published articles on topics related to the Ageless Wisdom. In the last 5 years, he has published two books: "The Soul Source – A Primer for Living as a Soul" and "Subjective Influences of the 10 Seed Groups". The Soul Source provides a clear insight into the nature of the Soul and setting up a Spiritual Practice. His book on the 10 Seed Groups provides insight on the primary groups that make up our civilization and their spiritual potential. He currently serves as a faculty member for the Morya Federation: <http://www.moryafederation.net>, an online Esoteric school, and makes presentations at the Seven Ray Conference in Chandler, AZ.

Workshop: *Navigating the Shift*

During these changing times it is easy to feel overwhelmed and sometimes helpless. What can we do that could possibly make a difference? Taking from David Spangler's work on subtle energies we will explore together how to connect more deeply with the subtle environment of our own homes. As we acknowledge and work co-creatively with these energies, we create a field of love and support within our environment. We become conscious transmitters of this joined energetic field. Thus, we participate in and contribute to the manifesting of the Divine Plan. In this workshop we will discuss briefly the underlying principles of subtle energies. We will then go on an imaginary journey through our homes to practice connecting to the energetic presence of these subtle forces.

KAREN holds a master's degree in Transpersonal Psychology from Antioch University. She spent many years as an elementary school teacher in San Jose, California before entering the field of psychology in 1985. She was in private practice as a psychotherapist, in Seattle, Wa. from 1990 until her retirement in 2010. She spent a year training in Psychosynthesis and is a Certified Guided Imagery Facilitator. Her interest in subtle energies also led her to become a Reiki Master and Shen Practitioner. Both of these approaches are a non-invasive energy/bodywork that may be used for releasing deeply held emotions or helping reduce stress and chronic pain. Karen has been a student of the ageless wisdom teachings since 1985 and has studied astrology under Michael Robbins in Copenhagen. She organized a group in Seattle to continue her astrological studies with Heidi Robbins. This group met for two years. Karen and William Meader were instrumental in organizing a group of 20 or more students in Seattle to study with William. This group has been meeting since 2004. She has also been holding full moon ceremonies in her home and at the Theosophical Society in Seattle since 2003. Karen published her book and card deck, Full Moon Magic in 2013. This is a tool to assist people in honoring the five days of the full moon period. She has just completed her 2nd book, My Gentle Musings. This is a compilation of 6 years of blogs chronicling her personal, and spiritual journey from the ages 70-76. Even though it was written from the perspective of a woman in her 70's the themes that are covered are universal: loss, relationships, surrender, letting go, sex, and partnering, to name a few. Hopefully it will be in print by the time of this year's conference. (2019)

Freda Kemp

Workshop: *Attracting Money for Hierarchical Purposes*

This talk is designed to help reorient your views around money. Using DK's Reflective Meditation on Attracting Money for Hierarchical Purposes as its source and guide, Freda Kemp provides a framework for those on the spiritual path in how to deal with money and resources. This talk presents a practical guide for spiritual seekers and workers and presents a unique view on how to transform the world's money supply and direct it to the work of the Spiritual Hierarchy.

Ms. Kemp is a long-time student of Ageless Wisdom studying with the Center for Esoteric Studies. For the past four years she has been studying with Tetrada, Ashram School of the Seventh Ray in Russia. She is an instructor and mentor with the Morya Federation. She has written short book on the same topic – The Spiritualization of Money – A Great Spiritual Asset. Ms. Kemp leads regular full moon meditations at her home in Toronto, Canada. Prior to her recent retirement was a sponsorship and fundraising specialist with the City of Toronto.

Keith LaValley

Workshop:

Talk Does Not Cook Rice: Radiatory Healing as Spiritual Practice

The Master DK has informed us that all initiates are healers (and I have to assume actually that anyone who has placed their feet firmly upon the Path is as well), although not all consciously practice the healing arts. The Sufis say that "The Master enters the marketplace empty-handed, yet everyone receives a gift." If we understand the mechanics of our esoteric anatomy and how our various vehicles emanate prana and soul in our every interaction, perhaps we can all begin to practice healing through our everyday life.

In the Piscean Era, humanity relied upon the yogis of the Himalayas and the monks in their monasteries to contribute to and replenish the sea of available spiritual energy from which the common man and aspiring disciple could recharge. Sacred places upon the planet provided respite and refreshment. It may be that, as we enter the Aquarian Age, it is incumbent upon each of us to continually restore the necessary pool of goodwill and "virtue" to heal the 'little ones'; to be living and breathing and moving alchemical spiritual generators to radiate soul, which is health.

In this workshop, we will explore the need to break out of our shells of compartmentalization to see that we are all healers, even if we do not choose the path of conscious healing. We will discuss how we can practically implement healing as a spiritual practice and explore the practical mechanics of linking within to radiate without. We will examine the role of our innate connection to each other and our surroundings through the etheric body, the web that has no weaver, which constitutes the basis and foundation for radiatory effect; the science of resonance and entrainment. Finally, we will examine how positive harmlessness, connecting the dots of our esoteric anatomy and invoking the energy of Love creates a spiritual, and therefore healing, Presence.

If we do not compartmentalize Radiatory Healing as simply one of the two methods DK describes as useful to the Esoteric Healer, but see it as a spiritual practice, we can help change the atmosphere of the planet as we work to create an environment suitable and available to the Christ as He prepares for His Return.

My early teens were spent reading Edgar Cayce, Yogananda, Vivekenanda and Sufism and various disciplines. By late teens, Blavatsky, Krishnamurti and ultimately AAB.

Practiced as an attorney for 25 years as a Child Advocate representing young children who were sexually and physically abused as well as representing adult individuals with physical, developmental and mental health diagnoses. Retired from law and earned a Masters in Acupuncture. Simultaneously enrolled in the British Institute of Homeopathy.

Having realized in my teens that I had certain skills in hands on healing and medical intuition, I began studying any coursework available, among them: USR Masters in Esoteric Healing; classes with the International Network of Esoteric Healers; Mantak Chia/Taoist Healing Studies; Master Choa Kok Sui/Pranic Healing; Upledger Institute/Craniosacral. Currently engaged with individuals in the United States and Europe doing medical intuitive diagnosis and distance healing and operate a free clinic providing Acupuncture.

Plenary:

The Three Shamballa's: Destiny of the Root Races

(Plenary and workshop)

Esoteric students usually think of the fabled "City of Shamballa" as a place anchored in etheric substance, somewhere in the remote Gobi Desert. There have been however, three locations for the "planetary crown chakra" from whence "the Will of God is known" – one location for each of the three major roottraces.

These locations are in South and Central America, corresponding to the Lemurian and Atlantean roottraces, whilst the Gobi region corresponds to our Fifth Root Race. In this presentation, Phillip will discuss these specific locations and their significance in history, as well as the imminent re-activation of the ancient South American branch, as the Sixth Root Race unfolds over the next 25,000 years.

The third ray of Active-Intelligence is a major ray that governs astrology, magic and history. Phillip Lindsay has been a student and teacher of the ageless wisdom, esoteric astrology and esoteric history for over thirty years – self-employed as an astrological counselor.

Phillip is the author of [fourteen books](#) on these subjects. His website <http://esotericastrologer.org> is dedicated to showcasing the leading thinkers in the world today on Esoteric Astrology and the Seven Rays.

Phillip's main method of disseminating Esoteric Astrology and the Ageless Wisdom is through his [monthly newsletters](#) – sent out continuously for the last fifteen years, on every full moon festival, in several language translations.

Phillip's long term project is the ongoing "The Hidden History of Humanity" series of books and videos. This is an area where many significant breakthroughs have been made, taking him to many countries, investigating and filming ancient megalithic sites that are the remnants of ancient civilisations.

[The Hidden History of Humanity video](#) was released in 2017, enjoying several million views in its first year. Phillip's voluminous new book, "[Unveiling Genesis: Mysteries of the Roottraces and Cycles](#)" (2017) is an extensive update of the original The Hidden History of Humanity book and a good companion to the video.

Lisa Love

Workshop:
The Divine Plan and the Evolution of the Soul

Humanity has reached a critical juncture where different parts of humanity seem increasingly at odds with each other. AND, this crisis has long been anticipated in the Ageless Wisdom tradition. Decades before teachings like Spiral Dynamics and Integral outlined the psycho-spiritual evolution of humanity, the Ageless Wisdom teachings spoke about "groups of souls" who manifest various levels of consciousness around us. What are these soul groups? What kinds of consciousness do they possess? How can

these various soul groups exist in a more harmonious way together so that they are more likely to cooperate with the Divine Plan, instead of opposing it? This workshop will give an overview of this process and from an Esoteric Psychology perspective give us the pros and cons of what we can expect. The workshop will also draw some parallels to the teachings of Spiral Dynamics and Integral revealing how they may have actually been influenced by the writings of Alice Bailey, whether they are now aware of it, or not.

Dr. Lisa Love has been involved in the esoteric field for over thirty years. She is a psychologist with degrees in Marriage and Family Therapy, Transpersonal Psychology, and Esoteric Psychology. She has also previously taught courses in Esoteric Psychology through the University of Seven Rays. Her passion is showing the connections between the field of Esoteric Psychology and other psychology disciplines, so that the field of psychology understands how relevant the Ageless Wisdom teachings remain to help us understand where humanity is at and where it is headed in the future. Along these lines she has written the book *Becoming Human* and is completing the follow up book *Becoming Soul*.

Antonella Nobile

Pre-conference Presenter for Esoteric Astrology

Plenary
Planning the New Solar Culture and Human Order

In this presentation, we will look at the Septenary Model as the harmonic principle and matrix for every conscious action, project, thought-form, and group working. We will consider that planning the new solar Culture and human Order will work best in imitation of the great Architect of Space.

This basic hierarchical pattern, fusing the esoteric science of the “Seven Rays” with the Pythagorean science of Harmonics, will increasingly lead the “new group of world servers” to orderly and causally assert the Divine Plan on Earth through the new Solar Culture. The evolutionary Plan for the near future of Humanity can be accordingly ‘formulated’ and organized with a ‘spine’ of 7 Rays Goals inferred from the Teaching's indications and integrated by 42 secondary Goals/Vortexes.

Workshop: *Planning the New Solar Culture and Human Order*

We will also continue to explore the heavenly directions and cycles that prepare the way toward the crucial Date 2025, and a

"Sevenfold Formula to assert the Plan of Love and Light" will be proposed, in order to converge and focus our common efforts and visions towards the Exteriorization of the hierarchical Plan, "in united breath and unified rhythm" with the signs of the Heavens.

The "art of composing the causes" of the Future is the Art of creation of Ideas in the World of Fire, and the art of building the evolutionary Formulas and thought-Forms that imitate it. The incarnated human souls will progressively learn and go through this higher Art in order to fix the new Aquarian prototypes. The Fourth Human Hierarchy is a "coordinated cooperation toward a common goal" and is increasingly externalizing, in order to assert and restore the Divine Plan on Earth through the new Solar Culture.)

Antonella Nobilio will be the presenting on behalf of the Planetary System Project (TPS). She has been a researcher of Ageless Wisdom Teachings for the last 28 years, focusing on work of Alice Bailey, Helena Blavatsky and Helena Roerich.

Since 1991, Antonella has been part of an esoteric 3rd-7th Ray group currently organized as an international 'system of systems'. This group works as a free Order that includes 49 functions and functionaries and is based on a hierarchical and harmonic model of nature. The research of this system focuses primarily on the formulation of methods to support the embodiment of the Divine Plan on our planet through study and application within the following disciplines: the Platonic Art of thinking, the Pythagorean science of harmonics applied to the Seven Rays, the science of Cycles, and the science of heliocentric and geocentric Astrology. <http://blog-en.theplanetarysystem.org/>

The Cosmic Code

The Hermetic axiom "As Above, So Below," alludes to the universal code found within nature by looking at its inherent geometric patterns, i.e. fractals, Fibonacci sequence, spirals and the Golden Ratio, etc. These wisdom teachings emphasize the Law of Correspondences or the study of how the microcosm and macrocosm are both interconnected reflections, revealing a conscious Universal Intelligence. At all levels of manifestation we find similar re-occurring patterns; from atom to cell, cell to man and man to galaxy. Every system is pervaded by a more holistic system. Whatever the scale may be there are essentially three qualities to

be found at every state of manifestation. Life or Energy manifesting through a particular form and thereby creating a certain level of consciousness.

JUSTIN WILKINSON began his training in video production in high school and continued with several college courses in film and editing, before entering the workforce. Working 2 years at a Los Angeles post-production house, Justin further expanded his skillset by learning complex frame-by-frame rotoscoping and 3D image compositing. He was quickly promoted to fulltime trainer to over 100 employees and eventually put in charge of a compositing team. Following an internship at KJLA TV studios, Justin was hired as interactive web editor where he learned location shooting, digitizing content and editing video footage as well as studio production techniques. After five years as a video editor, Justin applied his skills to communicating esoteric wisdom utilizing the evocative tools of multimedia, music, narration and inspiring artwork to engage viewers on TheAgelessWisdom.net and Ponderonthis.net. Pre-Conference Esoteric Astrology Workshop

Pre-Conference Esoteric Astrology Workshop (May 3 - May 5)**Understanding and Expressing your Role in the Manifesting of the Divine Plan**

There is no doubt that your birth chart gives important hints about how you may best help to express your part in the Divine Plan. Saturn is the planet that correlates directly with the Plan and its position and aspects in your chart will reveal many things about your Dharma (and also the Karma which has to be balanced if you are to be a true representative of the Spiritual Hierarchy as you work to make the Divine Plan a reality in your life and in the life of humanity). Of course, your rays and the other planets are also very important. Mercury, which with Saturn is the Planet of Discipleship, will also offer its guidance, and surely that planet which is your soul ray ruler will have its important part to play. Really, your entire horoscope points to your role as one who can illuminate and manifest the Divine Plan.

The point is, only seven years remain until the Great Hierarchical Conclave of 2025. We disciples have so much work to do before that time. The materialistic counterforce is hard at work trying to prevent the timely expression of the Plan, and we all must work hard to make sure that the manifestation of the Plan is not delayed. A delay of up to 300 years is possible, and perhaps more if we do not take advantage of our present opportunities and challenges.

So, our International Group of Esoteric Astrologers, reinforced this year by astrologers who have not been able to attend for several years, or who are new to our process, will, therefore, focus on The Divine Plan and You! When we succeed in aligning with the Spiritual Will, we learn that there are spiritual processes which are far more important than fulfilling our own individual desires and preferences. We learn what it is really like to become, one day, a true hierarchical Worker—a goal certainly shared by all of us. We learn about the beauty meaning of impersonality when we fulfill Saturn in our lives and learn to really open the sacrifice petals of our egoic lotus. The larger, wider life looms on ahead, and, at an Esoteric Astrological Workshop like this one, we can learn to approach and participate in that greater life.

So, we really do hope that you can join us in person, as we learn what the Universal Mind indicates about the Divine Plan and how we can fulfill our part in that Great Plan by studying our birth chart to illumine that part—for indeed each of us has such a part.

Advancing Seven Ray Seminar

Advancing Seven Ray Seminar (May 5 - May 7)**Manifesting the Divine Plan Globally: The Seven Rays in Group, National and International Relations**

The Science of the Seven Rays plays a profound role in the clarifying of individual spiritual psychology, but is equally potent in understanding group, national and international spiritual psychology. Master DK's book, "The Destiny of the Nations" and numerous pages of "Esoteric Astrology" lead us into a broader application of the Ray Science.

If we want to shed light on the Divine Plan and find our place within the groups which serve the Plan, this type of broader understanding of the group implications of the rays must be studied, and that is what we intend to do at the forthcoming Advancing Seven Ray Seminar, during the 2019 Pre-Conference. Of course, we must always keep in mind our own, individual ray chart, but inevitably, we are members of groups, based upon our rays, and those groups have certain ray objectives contributing to the advancement of the human race. We need to see the individual picture (upon the clarification of which we have been working for a number of years) and also the larger picture—the group picture.

We anticipate that our work together at the 33rd Conference will greatly expand our understanding of the group implications of the Seven Rays, and help us better understand and express our role within the large Plans of the Hierarchy, Shamballa and the Planetary Logos.

We certainly looking forward to work with you in-depth on this fascinating and ever-expansive subject. Our work will lead you to an increasing ability to reaching as many people as possible who need to understand the energy structure of their groups and nations, all in preparation for the Externalization of the Hierarchy and the Reappearance of the Christ—the two greatest spiritual events on our planet at this time.
